

Website Covid Info

As we resume club activities, we are required to operate those activities within British Columbia and PCA guidelines and regulations.

Under the current provincial government regulations on gatherings, we can have no more than 50 participants, with appropriate physical distancing, at a club event. As you know, we always sign a [PCA waiver](#) (link) to participate in a driving event but now PCA also requires participants to sign an additional [COVID-19 waiver](#). Fortunately, members only need to sign this new waiver once and it covers all club activities for a year, including non-driving events. In addition, when submitting for insurance coverage, each club has to provide PCA with information (link) on how it is implementing procedures to comply with all government regulations and a link to local government information.

Our hope is to have the waivers available for signature online very soon and prior to our first driving event on June 7th. Registered participants will be notified by the organizer when this feature is available via MSR or if not, what alternate procedures will be implemented to handle the waiver requirement. Our goal is to ensure participants are kept safe by not having to pass around a waiver sheet at the event for everyone to sign.

As part of complying with all regulations, participants in all club activities must preregister through MSR. There will be no exceptions to this and only those who have registered and completed the waivers will be allowed to participate.

So that we can still go out and enjoy our cars, your understanding and cooperation with this new way of doing things is greatly appreciated,

See you on the road soon!
